

12 Memorable Quotes by Commission Chair Mr. Ken Drysdale

Here are 12 memorable quotes attributed to Ken Drysdale, derived from Sections 9 and 10 of the reports:

1. **"The failures of our pandemic response were not just mistakes—they were systemic breaches of trust that demand accountability and reform."**
2. **"Public health policies that ignore transparency erode the very fabric of democracy."**
3. **"We must ensure that emergency measures protect citizens, not exploit their vulnerabilities for political or economic gain."**
4. **"The voices of ordinary Canadians have revealed a harsh truth: our systems were unprepared, unethical, and inequitable."**
5. **"The expedited approval processes for COVID-19 interventions ignored the foundational principles of safety and evidence-based science."**
6. **"Our findings highlight a clear need to restore public trust through transparency, accountability, and informed consent in healthcare."**
7. **"Lockdowns and mandates were not just policies—they became tools that magnified social inequities and isolated the most vulnerable."**
8. **"Adverse reactions are not anomalies—they are critical signals that our health systems cannot afford to dismiss."**
9. **"This inquiry has shown us that democracy is fragile—it must be defended in times of crisis, not suspended."**
10. **"The lack of proper investigation into adverse effects represents a grave failure of both governance and ethical responsibility."**
11. **"The lessons of this inquiry must guide us toward a system that values lives over profits and truth over expedience."**
12. **"The supplemental hearings were driven by one principle: the pursuit of truth for the sake of justice and humanity."**

These quotes emphasize the major findings and ethos of the NCI reports, making them suitable for use in media interviews, promotional materials, or public discussions.
