

12 Memorable Quotes by NCI Witnesses

Here are 12 notable and impactful quotes from the 2023 report transcripts, attributed to witnesses:

1. **"I was reprimanded for questioning vaccine safety—doing my job became a punishable act."**
– Dr. Gregory Chan, Toronto.
2. **"The term ‘informed consent’ has lost all meaning when people are pressured and misled into medical decisions."**
– Dr. Misha Susoeff, Red Deer.
3. **"I lost my job for refusing a vaccine that went against my medical history and beliefs. They didn’t care; they just wanted compliance."**
– Mark Varga, Saskatchewan.
4. **"Myocarditis cases in young men have skyrocketed. I fear we’ve traded one crisis for another."**
– Dr. Charles Hoffe, Langley.
5. **"Children were denied school, play, and social development. For many, the mental scars will outlast the pandemic."**
– Dr. Marian Laderoute, Saskatoon.
6. **"I was silenced when I raised concerns about coercive vaccine mandates within my workplace. Dissent was not tolerated."**
– Nurse Kristen Nagle, Ottawa.
7. **"Pregnant women were told the vaccines were safe, yet no studies on pregnant populations existed. How is that ethical?"**
– Dr. Francis Christian, Regina.
8. **"Residents in care homes died alone and afraid because family visits were deemed nonessential. That will haunt me forever."**
– Allison Nesdoly, RN, Regina.
9. **"No one told us the vaccines carried risks, and the government’s ‘safe and effective’ slogan was a lie for many."**
– Sheila Lewis, Ottawa.
10. **"I’ve never seen such widespread fear and blind trust in authority—it’s terrifying what people will accept in a crisis."**
– Dr. Roger Hodgkinson, Edmonton.

11. **"The PCR tests were a flawed tool used to justify prolonged lockdowns and fear-mongering."**
– Dr. Roger Hodgkinson, Vancouver.
12. **"They pushed vaccines as the only solution and ignored the growing evidence of adverse effects. It was negligence on a massive scale."**
– Dr. Tess Lawrie, Red Deer.

These quotes reflect a range of experiences and testimonies, capturing the emotional, ethical, and professional concerns raised during the inquiry.
